## Customer Care – compensate & reward your customers

Reward your customers on specific occasions, give them an extra thought or encouragement directly on their cellphone.

This is easily done with ClearOn's digital cash vouchers. Our vouchers are perfect for compensating customers or boosting brand loyalty with rewards. And don't forget, in order to ensure strong customer relations, you must also make sure your staff is well taken care of – which is easily done with digital vouchers.

### How does it work?

Customer Care is a digital administrative interface that enables send outs of digital cash vouchers. The cash voucher is dynamic, so you can easily select the value of the voucher upon send out, depending on the purpose. On top of that, the fact that you can choose between four different coupon templates makes it easy to customize each send out after your needs.

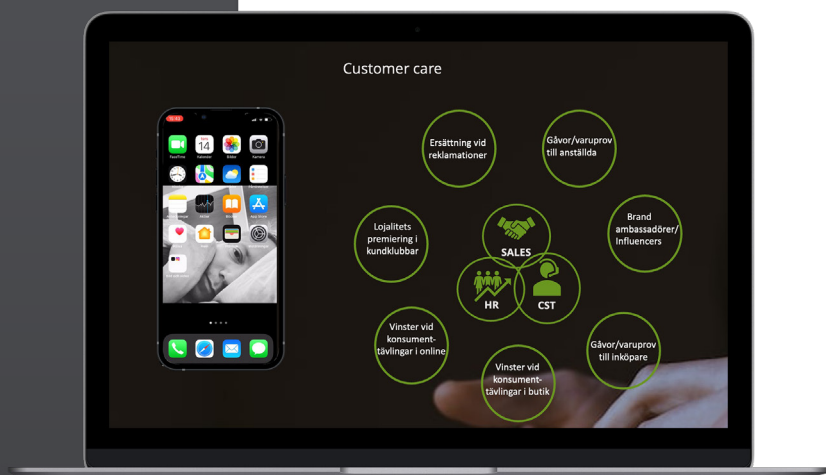

*If you prefer physical checks, we can of course arrange that as well. Read more about it [here!](#)*
